MISSION & GOALS

The PokerVerseClub non-fungible token (“NFT”) is your ticket to be a part of the journey into creating the go-to poker casino in the metaverse. The exclusive collection of 11,111 PokerVerseClub NFTs will be used to create the best and most inclusive player vs. player crypto poker casino and poker community.

Holders of the PokerVerseClub NFT will provide the initial capital for building the first two PokerVerseClub poker casinos ([Decentraland](#) and [The Sandbox](#)) and in return will receive the rewards, benefits and utilities described in this whitepaper. Our mission is to continue to expand and evolve the poker playing experience through blockchain technology and other new technologies that can be used to enhance the poker player experience and dominate the crypto poker casino industry. Our goal is to be at the forefront of the new evolution of poker and continue to push boundaries in the web3 poker space.

PHASE 1: BUILD THE POKERVERSECLUB COMMUNITY

Real community means an organic community. The PokerVerseClub is building a community of poker enthusiasts and long term poker player to ensure its place as the metaverses first ultimate premier poker casino. To achieve organic growth and build a strong community, the PokerVerseClub will execute various community growth and marketing plans, including, but not limited to, the following:

- Launch social platforms (Discord, website, Instagram, Twitter)
- Run whitelist and free mint giveaways for dedicated community members through missions & community PokerVerseClub poker games.
- Use paid promotions via social media marketing platforms to spread the word.
- Collaborate with influencers and poker professionals.
- Run weekly AMAs to keep the community involved and up to date.

For PokerVerseClub, its community strength is quality over quantity; hype has no value in any long term NFT projects. The PokerVerseClub is looking for a solid foundation of dedicated poker players & NFT investors to keep pushing forward in this new market.

Join the PokerVerseClub and be a part of the evolution of poker!

PHASE 2: POKERVERSECLUB NFT (NON-FUNGIBLE TOKEN)

In its genesis series, there will be 11,111 unique PokerVerseClub NFTs. The PokerVerseClub NFT will be held by our early community members who participate in minting to support the PokerVerseClub missions and goals to become the first ultimate premier poker casino in the metaverse. These crispy, clean, professional NFTs will not only spark envy amongst fellow NFT enthusiast/poker players, but also provide the rewards, benefits and utilities outlined below.

PHASE 3: POKERVERSECLUB IN THE METAVERSES **[DECENTRALAND & THE SANDBOX]**

Once minting is complete and our community has banded together under the name of PokerVerseClub, the PokerVerseClub will buy virtual real estate in Decentraland and The Sandbox to build our PokerVerseClub poker casinos.

The PokerVerseClub metaverse poker casinos will be open to the public; holders will get perks and benefits at these poker casinos as described below.

The PokerVerseClub leadership is dedicated to researching and taking all required actions to comply with all gaming regulatory and legal requirements. Legal representation will be sought if needed to ensure legal compliance and a strong compliance foundation for the PokerVerseClub. Clear and regular communications with all holders will provide updates on the statuses of the above developments and steps being taken.

PHASE 4+: THE POKERVERSECLUB METAVERSE FUTURE

As you play you reminisce about your time training at the PokerVerseClub tables and learning from the best in the PokerVerseClub’s exclusive masterclasses for holders. THE POKERVERSECLUB DIFFERENCE

WHAT MAKES POKERVERSECLUB DIFFERENT FROM OTHER POKER CASINO METAVERSE PROJECT?

The PokerVerseClub is dedicated to serving all the needs of poker enthusiasts and professionals. Other major gambling and casino NFT projects do not specifically cater to poker players and the poker experience; instead, they focus on slots and table games. The PokerVerseClub is here to serve poker players, with a focus on player experience and the poker community. Pokerverseclub is not your typical poker casino like any else, we will be creating an amazing poker casino while pushing the boundaries of what has not yet been done. The PokerVerseClub community will be a part of the development/advancement of the poker experience.

WHY NOT PLAY-TO-EARN (PTE)?

Current PTE poker NFT projects are not focused on true player vs. player poker where people buy-in using crypto to play against each other for crypto. In PTE games, rewards are in the form of additional in universe NFTs and virtual game objects; which only have value on the secondary market. If at any point the secondary market does not value the NFTs of the PTE game, the “earnings” have no value. PVC does not want to incentivize play with something that does not have long term value. Poker enthusiasts and especially poker professionals know that betting means a lot more when there is real currency on in the pot. PokerVerseClub members are not playing for NFT trinkets that might have value on a secondary market. PokerVerseClub members play for real.
